New Vein & Vascular Consult Form

New Patients:
P: 480-654-7121
F: 480-396-1571

What is PAD? Peripheral arterial disease – also known as PAD – is a serious circulatory problem in which the blood vessels that carry blood to your arms, legs, brains, or kidneys, become narrowed or clogged. PAD affects over 18 million Americans, most over the age of 50.

Patient Information

Diagnosis (Required): _____

Location

- ☐ 6309 E Baywood Ave, Ste 101, Mesa, AZ 85206 ☐ 3367 S Mercy Rd, Ste 201, Gilbert, AZ 85297
☐ 37200 N Gantzel Rd, Ste 350, Queen Creek, AZ 85140

Requested Physician

☐ Alphonse M. Ambrosia, DO ☐ Amy E. Daliman, DO ☐ Santosh Desai, DO ☐ Varun Tandon, MD

DO I NEED TO TEST FOR PAD?

People with PAD are at significantly increased risk for stroke and heart attack.

Please circle YES or NO on the questionnaire below to help us determine if you are at risk.

YES NO Do you experience any pain at rest in your lower leg(s) or feet?
YES NO Do you have foot, calf, buttock, hip, or thigh discomfort (Aching, fatigue, tingling, cramping, or pain) when you walk, which is relieved by rest?
YES NO Are your toes or feet pale, discolored, or bluish?
YES NO Do you have an infection, skin wound, or ulcer on your feet or toes that are slow to heal (8-12 weeks)?
YES NO Do you have high cholesterol levels, or other blood lipid problems, or do you take medication to lower cholesterol?
YES NO Do you have high blood pressure or take medication for high blood pressure? YES NO Do you have diabetes?
YES NO Have you ever smoked?
YES NO Have you previously had a stroke?
YES NO Do you have heart disease?

If you answered YES to 1 or more of these questions you may be at risk for PAD and need a vascular consult

Your Guide to Trusted Cardiovascular Care

CVAM's mission is to provide the best cardiovascular care through education, prevention, and innovative treatments. With data-driven results, CVAM is committed to better patient outcomes, lower costs, and seamless care.

Proactive Care for High Risk Patients

We specialize in identifying and managing complex cardiovascular cases, helping to ensure high-risk patients receive attention they need to stay stable and thrive.

Reducing Hospital Readmissions

Our proactive follow-up strategy helps prevent avoidable hospital stays. We see patients promptly after discharge to support long term recovery and health.

Cost-Effective, Comprehensive Service

We offer high quality cardiovascular care with a focus on affordability and coordination, giving patients access to services they need, without added stress and financial burden.

Intentional Intervention, Meaningful Results

We avoid unnecessary procedures and act on what is medically appropriate. Our advanced imaging technology supports accurate diagnoses while minimizing invasive procedures.

A Compassionate, Accessible Team

From front desk to physicians, our team is responsive, approachable, and dedicated to serving you.

What Do We Offer?

- Same day appointments
- New Patient Phone Line
- In-office Vein Treatments
- In-office, full-service testing
- State of the art PET imaging
- Triage line to avoid ER/Admissions
- CHF clinic with same day access
- CHF patient phone line access
- Device Clinic
- Virtual appointments
- Virtual Cardiac Rehab
- Ambulatory Surgery Center
- Multiple Locations in the East Valley
- Patient portal
- Mobile online check in

We have highly reputable physicians, specialized to cover all areas of cardiovascular care for your patients, including General Cardiology, Interventional Cardiology, Electrophysiology, Structural Heart and full Vascular Care.
